# STERILIZATION PRODUCTS

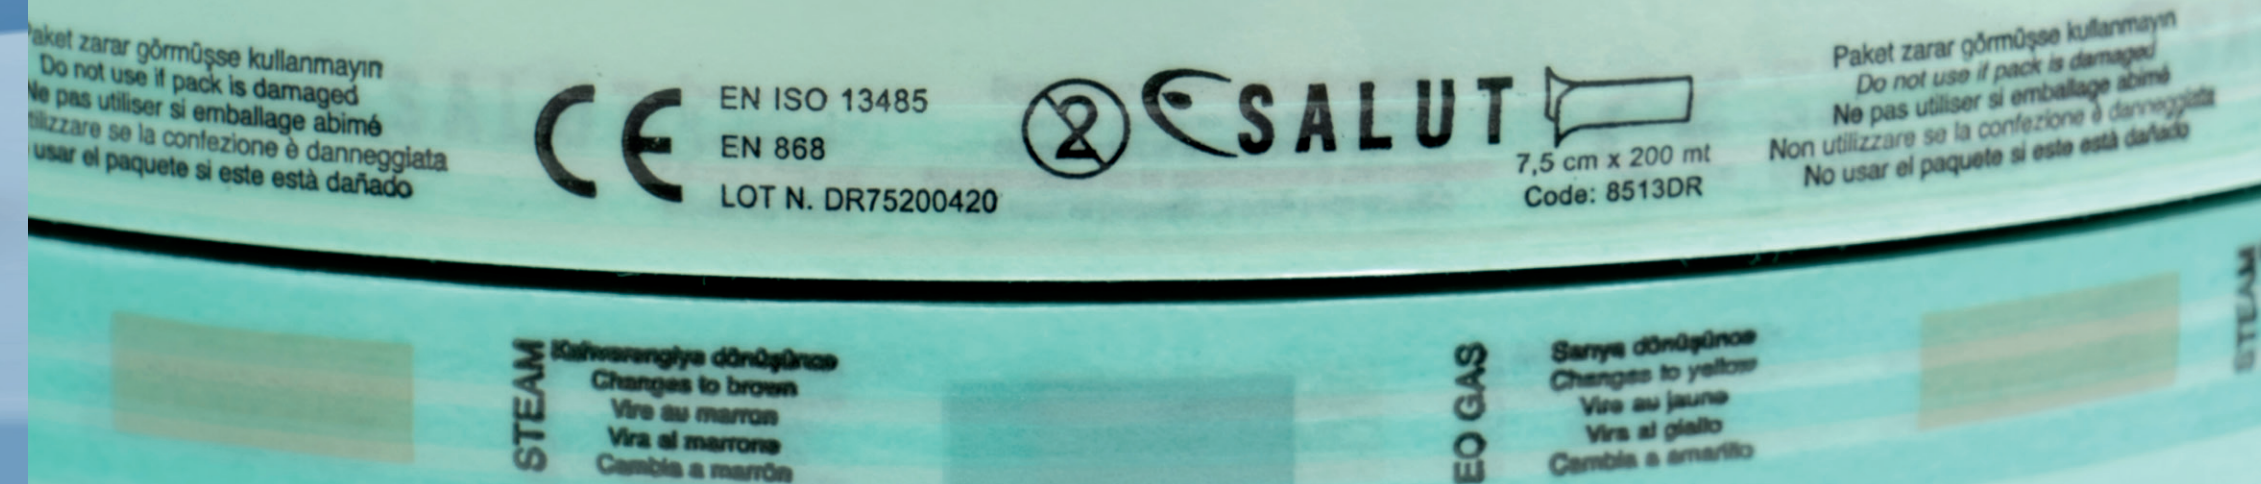

## STERILIZATION REELS

- Maximum safety
- Durable and high-performance
- Reinforced edges to prevent collecting dust
- Reinforced five-layer CPP-Pet laminated tear-proof film
- Superior quality 60 g/m2 or 70 g/m2 medical kraft paper
- ISO 11140 certified steam and ethylene oxide color-changing indicators

- Optional formaldehyde and plasma indicators can also be applied upon request.
- Strong three-line seal, with most effective spaces
- Complies with EN 868-5 standard
- Excellent adhesiveness, non-tear opening
- Marked opening direction
- Validated production process

REF NO	ÜRÜN ADI
DR 0520	SALUT 05*200CM STERILIZATION REEL
DR 7520	SALUT 7,5*200CM STERILIZATION REEL
DR 1020	SALUT 10*200CM STERILIZATION REEL
DR 1520	SALUT 15*200CM STERILIZATION REEL
DR 2020	SALUT 20*200CM STERILIZATION REEL

REF NO	ÜRÜN ADI
DR 2520	SALUT 25*200CM STERILIZATION REEL
DR 3020	SALUT 30*200CM STERILIZATION REEL
DR 3520	SALUT 35*200CM STERILIZATION REEL
DR 4020	SALUT 40*200CM STERILIZATION REEL

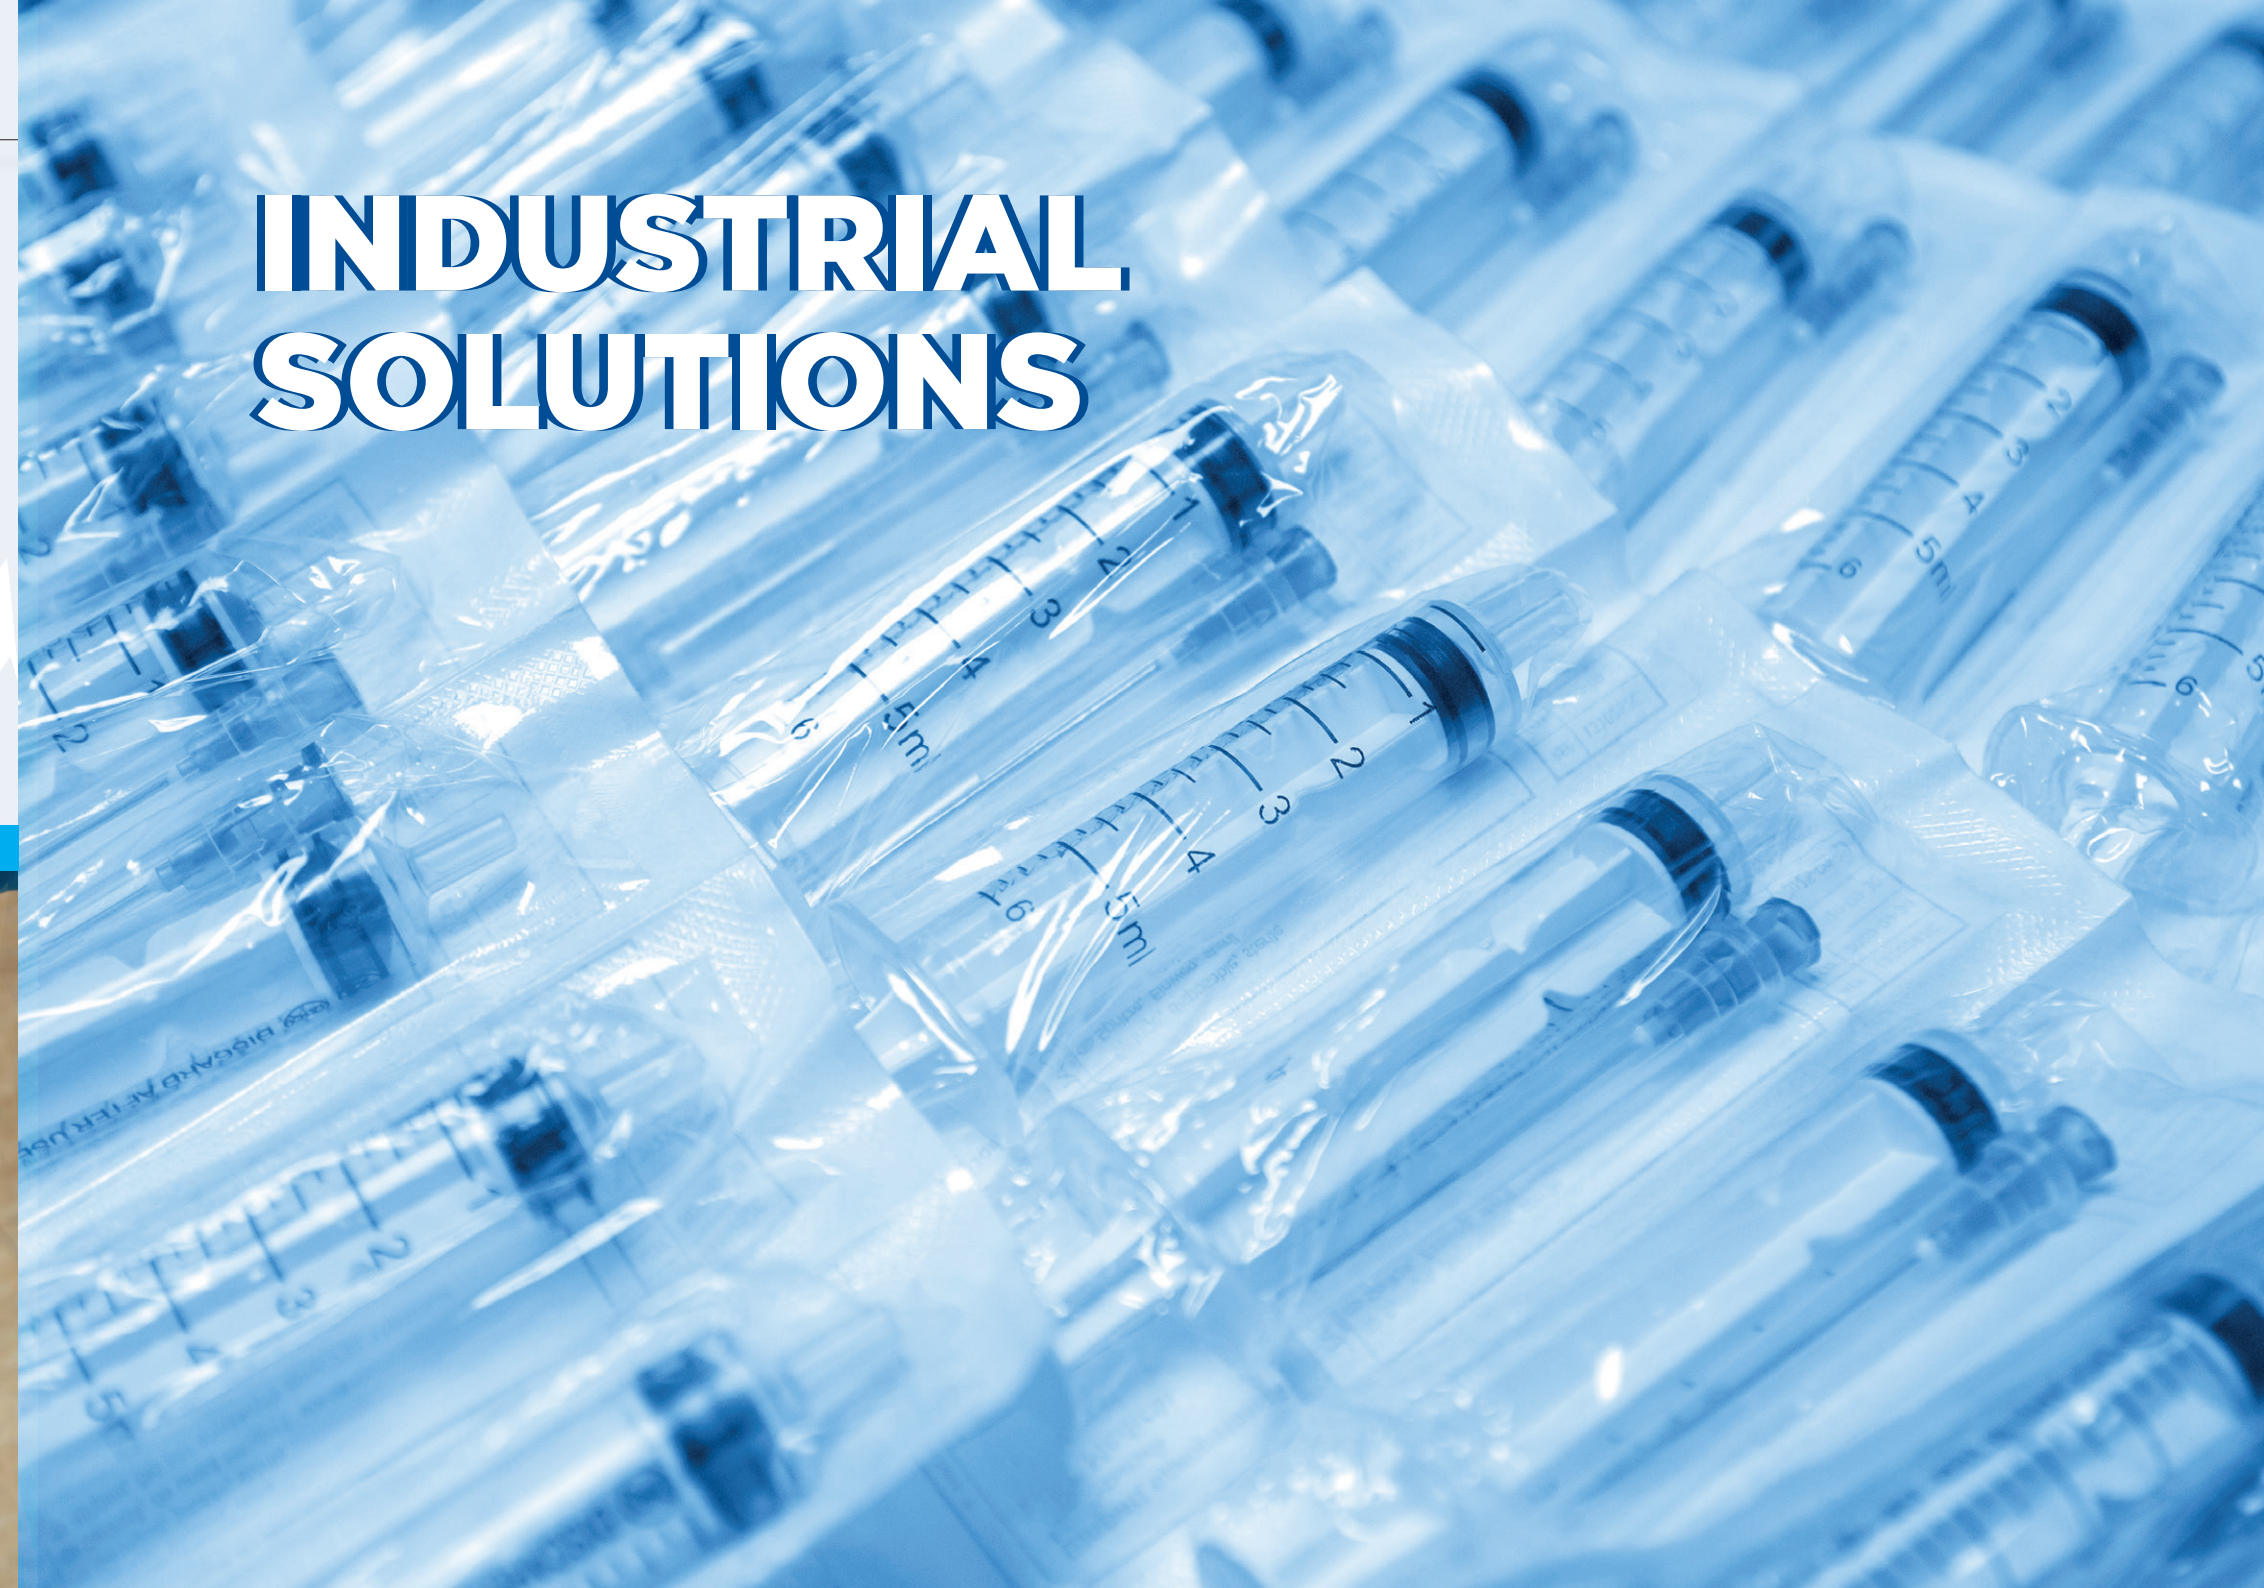

## STERILIZATION BAGS

- Maximum safety
- Durable and high-performance
- Reinforced edges to prevent dust from collecting
- Reinforced five-layer CPP-Pet laminated film to prevent tearing
- Superior quality 60 g/m<sup>2</sup> or 70 g/m<sup>2</sup> medical kraft paper
- ISO 11140 certified steam and ethylene oxide color-changing indicators
- Optional formaldehyde and plasma indicators can also be applied upon request
- Strong three-line seal, with most effective spaces
- Complies with EN 868-5 standard
- Excellent adhesiveness, non-tear opening
- Marked opening direction
- Validated production process

## INDUSTRIAL SOLUTIONS

## MEDICAL PACKAGING PAPERS

- 60 g/m<sup>2</sup> or 70 g/m<sup>2</sup> paperweight
- Printed or unprinted options
- Fully sealed
- Compatible with ethylene oxide gas, gamma and steam
- Strong performance in packaging disposable medical products such as needles, syringes, sponges etc.
- Complies with ISO 11607 and EN 868-6

## WRAP PAPER

- 60 g/m<sup>2</sup> paperweight
- Color options (blue and green)
- Anti-bacterial, durable construction
- Strong absorption
- High water resistance
- Compatible with steam and ethylene oxide sterilization
- Complies with ISO 11607 and EN868-2
